

R.E.MILLWARD

&

A S S O C I A T E S L T D

TORONTO FILM STUDIOS - FILMPORT

Toronto, Ontario

R.E. Millward & Associates has been the planning consultant on the Filmport and surrounding Port Lands development since the original Toronto Economic Development Corporation's Requests For Expressions of Interest in 2003. Working within the framework of the City's Official Plan and the Secondary Plan for the Waterfront, it was necessary to create a concept that conformed to existing and emerging planning policies, and encourage new construction in the area. Much attention has been paid to the public realm elements and the creation of an environment which is attractive and encourages visits, work and play. In addition to evolving the development strategy, R.E. Millward & Associates helped facilitate the necessary approvals. As Planning Consultant and government relations liaison Mr. Millward coordinated ongoing communications through Waterfront Toronto, City of Toronto and other public agencies.
