

UNION STATION MASTER PLAN Toronto, Ontario

In the spring of 2004, the City of Toronto commissioned a public consultation process and peer review for Union Station's Master Plan. The objective of requiring a consultation process and plan review was to identify any modifications to the Plan that might be necessary through an independent Peer Review. Partnered with Poulos & Chung Limited and Office for Urbanism an intensive six month review was conducted. Through discussions with the many stakeholders and research a Master Plan was evolved that was overwhelmingly adopted by City Council in December, 2004.
